

Setup POP iPhone™, iPad™, iPod® Email Service

If you would like to learn more about the differences between POP and IMAP, please see the POP vs IMAP guide

Steps are compatible with 3G and 4.0.

To set up POP, do the following:

1. Tap **Settings**.

2. Tap **Mail, Contacts, Calendars**.

3. Tap **Add Account**.

4. Tap **Other**.

5. Tap **Add Mail Account**.

6. Enter the following information in the spaces provided:

- Name - Enter your first and last name. This is the name that will appear in the **From** field of messages you send.
- Address - Enter your entire email address (e.g., myname@mydomain.com).
- Password - Enter the password for your email account.
- Description - Enter a descriptive name for the account (e.g., Work Account). This description will be visible only to you.

7. Tap the **Save** button.

8. Tap the **POP** button.

9. Under both the **Incoming Mail Server** and **Outgoing Mail Server** sections, enter the following information:

- Host Name - Enter the secure server name:
secure.emailsrvr.com
- User Name - Enter your entire email address (e.g., myname@mydomain.com).
- Password - Enter the password for your email account.

10. Tap the **Save** button.

11. The device will verify settings and return to the **Mail, Contacts, Calendars** screen.

Incoming Mail Server	
Host Name	secure.emailsrvr.com
User Name	myname@mydomain.com
Password	●●●●●●●●

Outgoing Mail Server	
Host Name	secure.emailsrvr.com
User Name	myname@mydomain.com
Password	●●●●●●●●
